Teen/Adult Division Classes

Ballet

Develop strength and grace through classical ballet technique. You will feel longer and stronger and will know that you are making lasting improvements in your posture and flexibility.

Modern

Free your body to move through space—high, low, fast, slow. You will develop full-body strength and mobility while giving yourself a broad-ranging expressive outlet.

Tap I & II

If you have some pent up, get down and make sound energy inside you, try a tap class. There is nothing like the fun and mental challenge of a good rhythm tap pattern to get you going. Beginning Tap is for those with no tap experience or those wanting a refresher; Intermediate Tap is for those with some experience.

Ballroom

Brush up on your ballroom steps or learn new ones. You'll shine on the dance floor while burning calories.

Pilates Mat Exercises

For the allover conditioning regimen developed for dancers and used by the Minnesota Ballet Company, the Pilates mat class is it. The instructor keeps you interested and challenged, groaning and laughing, all the way to a well-toned, more injury-resistant body. All you do is show up.

Jazz I & II

Students ages 12–adult learn popular dance forms which incorporate everything from Contemporary Jazz to Disco.

What shall I wear for class?

No matter what the class, make sure you dress comfortably. Stretchy. Loose but not baggy or dragging. Once you attend class, you'll learn about any shoes (ballet, tap, jazz) or accessories (Pilates) that you may want to purchase.
